

Figure 10 · Construction Starts in the World

Construction Starts of Nuclear Reactors in the World

in Units, from 1951 to 1 July 2021

Sources: WNISR, with IAEA-PRIS, 2021

Notes:

Construction of Bushehr-2, started in 1976, was considered abandoned in earlier versions of this figure. As construction was restarted in 2019, it now appears as “Under Construction”. The Chinese project at Shidao Bay-1 is considered as two reactors, and construction starts in 2012 reflect this change.
