

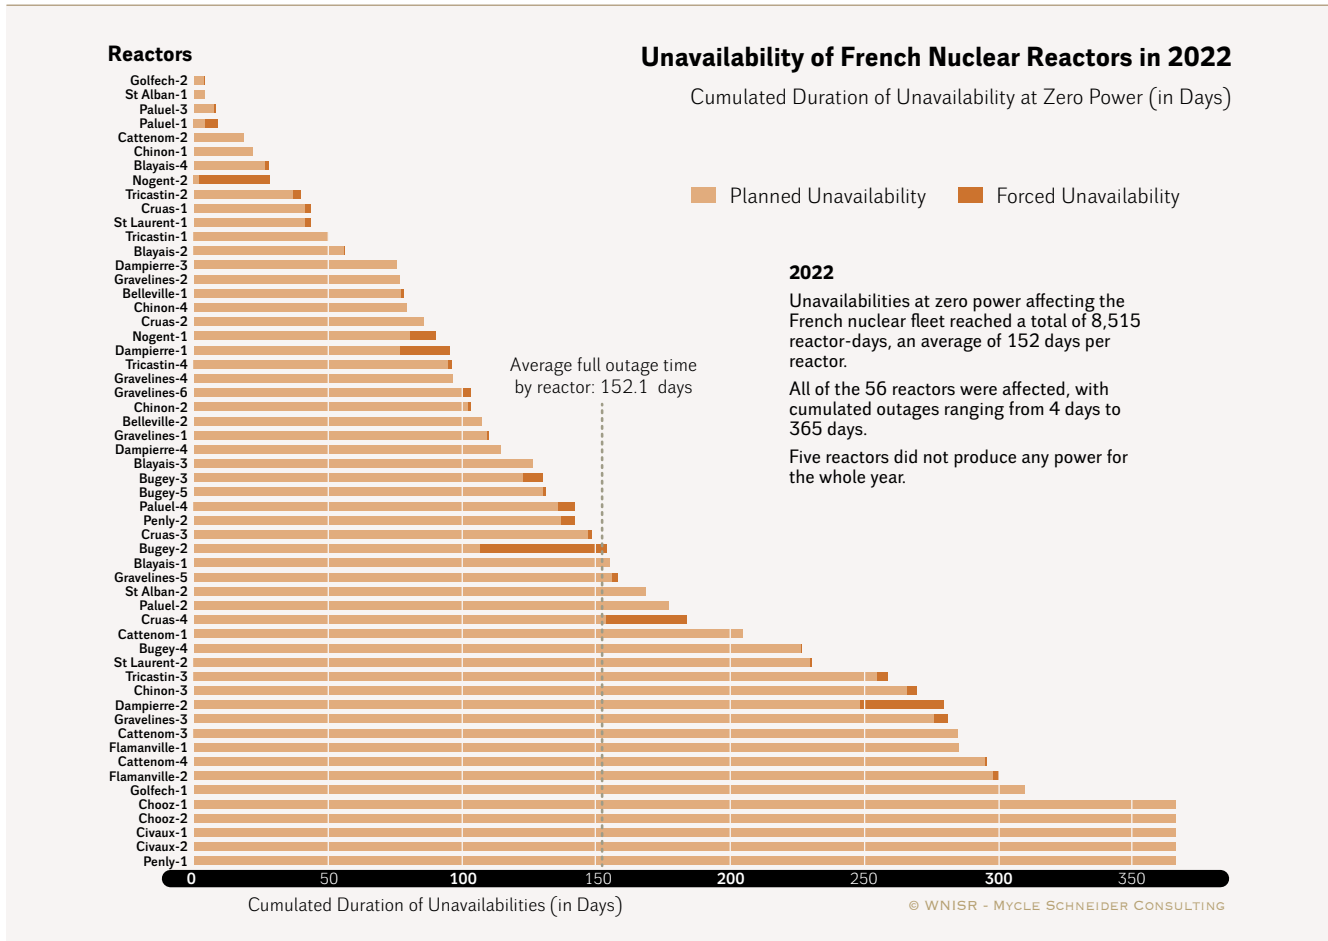

Figure 35 - Forced and “Planned” Unavailability of Nuclear Reactors in France in 2022

Sources: compiled by WNISR, with RTE and EDF REMIT Data, 2021–2023

Notes: This graph only compiles outages at zero power, thus excluding all other operational periods with reduced capacity >0 MW. Impact of unavailabilities on power production is therefore significantly larger.

“Planned” and “Forced” unavailabilities as declared by EDF.
