

Figure 13 • Construction Starts in the World

Sources: WNISR, with IAEA-PRIS, 2024

Notes: Construction of Bushehr-2 in Iran started in 1976, was considered abandoned in earlier versions of this figure. As construction was restarted in 2019, it now appears as “Under Construction”. Albeit of uncertain future, construction of Angra-3 in Brazil (2010) was considered restarted in WNISR2023, but construction has been suspended again.
